INDEPENDENT AUDITOR'S REPORT

April 6, 2016

Borough Council
Ebensburg Borough
Ebensburg, Pennsylvania

Report on the Financial Statements

We have audited the accompanying modified cash basis financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Borough of Ebensburg, as of and for the year ended December 31, 2015, and the related notes to the financial statements, which collectively comprise the Borough's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Ebensburg Borough's management is responsible for the preparation and fair presentation of these financial statements in accordance with the modified cash basis of accounting described in Note 1; this includes determining that the modified cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Borough's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Borough's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective modified cash basis financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Borough of Ebensburg, as of December 31, 2015, and the respective changes in financial position – modified cash basis thereof for the year ended on the basis of accounting described in Note 1.

Basis of Accounting

We draw attention to Note 1 of the financial statements, which describes the basis of accounting. The financial statements are prepared on a modified cash basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the budgetary comparison information on pages 46 and 47 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Management has omitted the Management Discussion and Analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the financial statements is not affected by this missing information.

EBENSBURG BOROUGH
 RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES,
 AND CHANGES IN FUND BALANCES OF
 GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES - MODIFIED CASH BASIS
 FOR THE YEAR ENDED DECEMBER 31, 2015

Amounts reported for governmental activities in the statement of activities are different because:

Net change in fund balance - total governmental funds (page 10)	\$ (74,279)
---	-------------

The issuance of long-term debt (e.g. bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. This amount is the net effect of the differences in the treatment of long-term debt on the statement of activities.

-

The net effect of various transactions involving capital assets, (i.e. purchases, disposals, etc.) is to increase net assets

-

Change in net position of governmental activities (page 7)	<u><u>\$ (74,279)</u></u>

EBENSBURG BOROUGH
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2015

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Ebensburg Borough, the Borough, was incorporated under the Commonwealth of Pennsylvania Municipalities Act. The Borough operates under the Mayor-Council form of government whereby the mayor and council are elected officials.

a. Basis of Accounting

The accompanying financial statement has been prepared on the modified cash basis of accounting, a special purpose framework. Under this basis, the only asset recognized is cash and only liabilities due at year end are recognized. All transactions are recognized as either cash receipts or disbursements, and non-cash transactions are not recognized. The modified cash basis differs from generally accepted accounting principles primarily because the effects of accounts receivable, capital assets and related depreciation, deferred inflows, accounts payable, long-term debt obligations, other liabilities, and deferred outflows are not included in the financial statement.

b. Basis of Presentation

The Borough's basic financial statements consist of government-wide financial statements, including a statement of net position and a statement of activities, and fund financial statements which provide a more detailed level of financial information.

As described in Note 7, the Borough participates in two (2) defined benefit pension plans, the Police pension plan and the Non-Uniform pension plan, and as reported in the Schedule of Changes in Net Pension Liability and Related Ratios, the most recent actuarial valuations performed as of January 1, 2015, reflect an excess of assets over actuarial accrued liability approximating \$115,554 for the Police plan and unfunded pension obligations approximating \$195,268 for the Non-Uniform plan.

Government-Wide Financial Statements

The statement of net position and the statement of activities display information about the Borough as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. The statements distinguish between those activities that are governmental and those that are considered business-type activities.

The statement of net position presents the financial position of the governmental and business-type activities of the Borough at year end. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the Borough's governmental activities and business-type activities. Direct expenses are those that are specifically associated with a service, program, or department and therefore, clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods and services offered by the program, grants, and contributions that are restricted to meeting the operational or capital requirements of a particular program, and interest earned on grants that is required to be used to support a particular program. Revenues that are not classified as program revenues are presented as general revenues of the Borough, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each governmental program or business-type activity is self-financing or draws from the general revenues of the Borough.

Fund Financial Statements

During the year, the Borough segregates transactions related to certain Borough functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the Borough at this more detailed level. The focus of governmental and proprietary fund financial statements is on major funds. Each major fund is presented in a separate column. Fiduciary funds are reported by type.

c. Fund Accounting

The Borough uses funds to maintain its financial records during the year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. There are three (3) categories of funds: governmental, proprietary, and fiduciary.

Governmental Funds

Governmental funds are those which most governmental functions of the Borough are financed. The Governmental funds follow the modified cash basis of accounting.

The following are the funds maintained by the Borough:

Major Funds:

General Fund - The General Fund is the general operating fund of the Borough. It is used to account for all financial resources not accounted for and reported in another fund.

Highway Aid Fund – Revenue recorded within this special revenue fund is received annually by virtue of the Commonwealth of Pennsylvania Liquid Fuels Tax Act and expenditures are restricted to certain appropriations for highway purposes as approved by the Pennsylvania Department of Transportation. Unexpended allocations of such revenues are available for carryover and reappropriation to the succeeding year.

Capital Projects Fund – The Capital Projects Fund is used to account for financial resources that are restricted, committed, or assigned for capital outlays, including the acquisition or construction of capital facilities and other capital assets other than those financed by the Proprietary Fund.

Non-Major Funds:

Recreation Fund - Revenue recorded within this special revenue fund is received from the operation of the Young Peoples Community Center, Tennis Center and the various recreational programs and activities.

Mainstreet Partnership Fund - Revenue recorded within this special revenue fund is received from various community events and provides support to preserve the architectural heritage of the Borough.

Proprietary Funds

Proprietary fund reporting focuses on the determination of operating income, changes in net position, and financial position. Typically, proprietary funds may be used to account for any activity for which a fee is charged to external users for goods or services.

The following are the Borough's major proprietary funds:

Enterprise Fund (Sewer, Water, and Stormwater Funds) –

The Borough's Sewer, Water, and Stormwater Funds are enterprise funds. Enterprise Funds are used to account for operations that are financed and operated in a manner similar to private business enterprises - where the intent of the governing body is that the costs of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges.

The Borough applies all GASB pronouncements and all Financial Accounting Standards Board (FASB) Accounting Standards Codification, unless they conflict with GASB pronouncements.

Fiduciary Funds (Trust and Agency Funds)

Fiduciary Funds account for assets held by a government unit in a trustee capacity and/or as an agent for individuals, private organizations, other governmental units and/or other funds. These include (a) expendable trust funds, (b) non-expendable trust funds, (c) pension trust funds, and (d) agency funds. The modified cash basis of accounting is utilized for fiduciary funds. The Borough's fiduciary fund is a pension trust fund, which consists of the Police and Non-uniform Pension Plans.

d. Budgets

The administration submits to the Borough Council proposed operating budgets in accordance with the Administrative Code. Prior to the inception of the calendar year, the budgets are legally enacted by the Council Members through passage of budget resolutions. All transfers of budgeted amounts between departments, as well as all budget amendments, require the approval of Council.

The budgets are prepared on the cash receipts and disbursements basis of accounting, for the following funds:

- General Fund
- Special Revenue
 - Highway Aid Fund
 - Recreation Fund
- Capital Projects Fund
- Proprietary Fund
 - Sewer Fund
 - Water Fund
 - Stormwater Fund

Formal budgetary integration is employed as a management control device on a cash receipts and disbursements basis of accounting during the year for the aforementioned funds. However, since the budgets are not adopted on a basis consistent with generally accepted accounting principles (GAAP), the budgetary comparisons presented in this report are on a non-GAAP budgetary basis. In this instance, however, the comparison is not materially by the different bases. The individual financial statements of the budgetary funds of the Borough present comparisons of non-GAAP budgets to actual results.

e. Encumbrances

Encumbrance accounting is not utilized by the Borough. This is the procedure under which purchase orders, contracts, and other commitments for the expenditure of monies are recorded in order to reserve that portion of the applicable appropriation. Reservations of fund balances are, therefore, not provided for in the financial statements.

f. Reporting Entity

The Borough follows the Statement of Governmental Accounting Standards Board No. 61, "The Financial Reporting Entity." The criteria for including organizations as component units within the Borough's reporting entity include whether:

- The organization is legally separate (can sue and be sued in their own name)
- The Borough holds the corporate powers of the organization
- The Borough appoints a voting majority of the organization's board
- The Borough is able to impose its will on the organization
- The organization has the potential to impose a financial benefit/burden on the Borough
- There is fiscal dependency by the organization on the Borough

Based on the aforementioned criteria, the Borough has the following component unit:

Ebensburg Main Street Partnership

The Ebensburg Main Street Partnership, the "Partnership", was created in 2012 by the Borough to preserve the architectural heritage of the Borough. The Partnership is a legally separate entity governed by a board that is appointed by the mayor and Borough council. Although the Partnership is legally separate from the Borough, the Partnership is reported as if it were a part of the primary government because its sole purpose is for the benefit of the Borough and its citizens. Furthermore, the Partnership is included as a component unit as the Partnership has no ability to issue debt or without the participation and agreement of the Borough. The operations of the Partnership are included in the governmental activities of the government wide financial statements as a separate special revenue fund. Separate financial statements are not published for the Partnership which follows the same accounting policies as the Borough.

Ebensburg Municipal Authority

Also, in accordance with the provisions of GASB Statement 61, Ebensburg Borough is considered to be a related organization of Ebensburg Municipal Authority. The Borough appoints the board members of the Authority, but it is not financially accountable for the Authority. Since the Borough cannot impose its will on the Authority, and since the Authority neither provides a financial benefit or causes a financial burden to the Borough, the Authority is not considered to be a component unit of the Borough.

g. Net Position

Net position represents the difference between assets, deferred outflows, liabilities and deferred inflows. Net position is reported as restricted when there are limitations imposed on its use either through the enabling legislation adopted by the Borough or through external restrictions imposed by creditors, grantors, or laws or other regulations of other governments.

The Borough's policy is to first apply restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net positions are available.

h. Fund Balance

The Borough follows GASB Statement No. 54, "Fund Balance Reporting and Governmental Fund Type Definitions." This statement required the governmental funds' fund balances to be reclassified into the following five (5) categories:

Nonspendable - fund balance permanently restricted and unavailable for current operations

Restricted - fund balance temporarily restricted for specified purposes stipulated by constitution, external resource providers, or through enabling legislation

Committed - fund balance temporarily restricted for specified purposes established by a formal action by the Borough Council. Formal action by Borough Council is also necessary to modify or rescind a fund balance commitment

Assigned - fund balance intended for specific purpose that does not meet the criteria to be classified as restricted or committed. Borough Council has authorized the Borough Manager as the official authorized to assign fund balance to a specific purpose

Unassigned - fund balance available for operations without any restriction

Borough Council will spend the most restricted dollars before less restricted in the order as defined above.

The Borough reports the following fund balance classifications:

General Fund

Assigned:

Unanticipated Expenditures	\$ 217,533
Life Insurance	6,000
Tennis Center	17,478
Sidewalk Improvements	<u>263,322</u>
	<u>\$ 504,333</u>

Other Governmental Fund Types

The Highway Aid Fund maintains a restricted fund balance of \$214,518 for expenditures for highway purposes as approved by the Pennsylvania Department of Transportation.

The Capital Projects Fund maintains a restricted fund balance of \$47,813 for future construction projects and capital improvements.

i. Operating Revenues and Expenses

Operating revenues are those revenues that are generated directly from the primary activity of the enterprise funds. For the Borough, these revenues are sewer and water service fees. Operating expenses are necessary costs incurred to provide the service that is the primary activity of the enterprise funds.

j. Interfund Transactions

Transfers between governmental and business-type activities on the government-wide statements are reported in the same manner as general revenues. Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after nonoperating revenues/expenses in the proprietary funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

NOTE 2 - CASH AND INVESTMENTS

The Borough has a policy that requires all deposits and investments, other than U.S. government obligations, to be covered by Federal insurance or to be fully collateralized by the financial institution issuing the investment or acquiring the deposit. Deposits that are not insured by the Federal Deposit Insurance Corporation are collateralized using the pooled asset method to one hundred percent (100%) of value as required by Pennsylvania Law.

The securities pledged as collateral are held by the trust department of a financial institution or by its agents in the financial institution's name. When certificates of deposit are purchased, the Borough or its agent either holds the actual certificate of deposit or receives a safekeeping certificate as its proof of ownership.

Pennsylvania Law limits investment and deposit types the Borough may purchase as follows:

- (a) U.S. Treasury bills.
- (b) Short-term obligations of the U.S. government or its agencies.
- (c) Demand, savings and time deposits with institutions insured by the FDIC or the National Credit Union Share Funds or collateralized with securities as provided by law.
- (d) Obligations of the United States or any of its agencies, the Commonwealth of Pennsylvania or any of its agencies or any political subdivision of the Commonwealth of Pennsylvania or any of its agencies providing the obligations are backed by the full faith and credit of the political subdivision.

Deposits include items described in (b) and (c).

A. Deposits

As of December 31, 2015 the carrying amount and the bank balance of the Borough's deposits, excluding the investments in the Wells Fargo Advisors for pension pooled funds as discussed below, totaled \$2,359,101 at one financial institution. Of the bank balances at the financial institution as of December 31, 2015, \$250,000 is covered by federal depository insurance. The remaining amount of \$2,109,101 is collateralized using the pooled asset method; however, because funds are not collateralized with securities registered in the Borough's name, they are considered uncollateralized. The amounts are included on the statements of net position as cash and cash equivalents.

B. Investment Pools

Wells Fargo Advisors

The Borough maintains two (2) single-employer defined benefit pension plans, and entered into an agreement with Wells Fargo Advisors. The Plans are governed by the Borough Council which may amend plan provisions, and which are responsible for the management of Plan assets.

Investments in external investment pools or in mutual funds are disclosed by Wells Fargo Advisors but not categorized because they are not evidenced by securities that exist in physical or book entry form. Securities underlying reverse repurchase agreements are also disclosed but not categorized because they are held by the buyer-lender. As of December 31, 2015, the carrying amount and fair value of the Wells Fargo Advisors pooled funds totaled \$2,742,215 which is the same as the value of the pool share.

NOTE 3 - SIDEWALK PROJECT AGREEMENTS

At December 31, 2015, the Borough had approximately forty-nine (49) agreements with property owners in the Borough for the payments associated with sidewalks projects at their properties. The balance due to the Borough amounted to approximately \$160,450 at December 31, 2015.

NOTE 4 - LONG-TERM OBLIGATIONS

Long-term liability activity for the year ended December 31, 2015, was as follows:

	Outstanding December 31, 2014	Additions	Payments	Outstanding December 31, 2015	Amounts Due Within One Year
General Obligation Note, Series A of 2001	\$ 174,268	\$ ---	\$ (44,393)	\$ 129,875	\$ 45,447
2011 Variable Loan – Swimming Pool	484,135	---	(85,184)	398,951	75,235
General Obligation Note, Series 2015	---	750,000	---	750,000	750,000
Total Obligations	<u>\$ 658,403</u>	<u>\$ 750,000</u>	<u>\$ (129,577)</u>	<u>\$ 1,278,826</u>	<u>\$ 870,682</u>

Capital Projects Fund – On September 27, 2001, the Borough entered into a general obligation note for the construction of the Youth Recreation Facilities. The Series A note was for \$600,000, with a term of two hundred fifty-two (252) months. The current interest rate on this note is 2.34%. The amount outstanding on the note at December 31, 2015, amounted to \$129,875.

Capital Projects Fund – In 2011, the Borough entered into a variable rate loan agreement with First National Bank to finance the project costs associated with the Swimming Pool Rehabilitation Project. The \$750,000 loan is to be repaid over a ten (10) year period. The interest is calculated on the unpaid principal balance using an interest rate based on the Prime Rate as published in the Wall Street Journal times sixty-six percent (66%). The current interest rate on this loan is 2.145%. This loan is collateralized by property located at 151 Swimming Pool Road Ebensburg, PA 15931. The amount outstanding on the note at December 31, 2015, amounted to \$398,951.

Capital Projects Fund – In 2015, the Borough entered into a general obligation note for bridge financing for the 2015 sidewalk project. The note was for \$750,000, with a term of one (1) year. Payments are interest only for that year, with the principal due upon the maturity date of June 1, 2016. The current interest rate on this note is 1.64%. The amount outstanding on the note at December 31, 2015, amounted to \$750,000.

Principal and interest requirements to retire the above long-term note payables are as follows:

	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2016	\$ 870,682	\$ 18,553	\$ 889,235
2017	123,386	8,674	132,060
2018	116,436	5,918	122,354
2019	80,231	3,829	84,060
2020	81,968	2,091	84,059
2021	<u>6,123</u>	<u>405</u>	<u>6,528</u>
Total	\$ <u>1,278,826</u>	\$ <u>39,470</u>	\$ <u>1,318,296</u>

NOTE 5 - PROPERTY TAXES

The Borough utilizes a two-tier real estate tax assessment. This form of assessment encourages the development of vacant land and does not penalize property owners for improvements made to property.

The current tax rate rates are 33.25 mills on land 8.5 mills per dollar on buildings. This is the equivalent of a 13.0 mill real estate tax assessment. The assessed valuation for 2015 totaled \$34,512,780 which would generate \$448,666 of property tax revenue. The 13.0 mills of real estate tax is used for the following purposes, 11.0 mills for general purposes, 0.5 mills for storm water management purposes, and 1.5 mills for swimming pool expense purposes.

The following is a summary of the tax calendar for the year ended December 31, 2015:

Mailing Date --- March 1, 2015
Discount Period at 2% --- March 1, 2015 to April 30, 2015
Face Period --- May 1, 2015 to June 30, 2015
Penalty Period at 10% --- July 1, 2015
Lien Date --- January 15, 2016

NOTE 6 - LIQUID FUELS TAX – HIGHWAY AID FUND

Revenues recorded within this special revenue fund are received annually by virtue of the Commonwealth of Pennsylvania Liquid Fuels Tax Act and expenditures are restricted to certain appropriations for highway purposes as approved by the Pennsylvania Department of Transportation. Unexpended allocations of such revenues are available for carryover and reappropriation to the succeeding year.

NOTE 7 - PENSION PLANS

Plan Description

The Borough maintains two (2) single employer defined benefit pension plans, the Police pension plan and the Non-Uniform pension plan. The benefits provided to the employees and beneficiaries under both plans are retirement, disability and death. The pension plans benefit provisions are established and may be amended by the Borough Council. The Borough Council has the authority to manage plan assets. The Borough issues a separate financial report on each pension plan. A copy of these financial reports can be obtained at the Borough Municipal Building.

The Commonwealth of Pennsylvania has enacted the "Municipal Pension Plan Funding and Recovery Act" (Act 205). This act establishes certain standards and requirements for municipal pensions in the areas of: (1) actuarial reporting; (2) employer contribution requirements; and (3) revising the State insurance allocations. The Borough's actuarial reports for the pension have been changed to meet the reporting requirements of Act 205. The disclosure requirements for the plan are summarized as follows:

Uniform Plan

Plan administration

The Borough of Ebensburg Police Pension Plan is a single-employer defined benefit pension plan. The plan was established effective March 1, 1977, (adopted pursuant to Act 600 of 1956). The plan was amended and restated by Ordinance No. 506, effective January 1, 2001. The plan is governed by the Borough Council of the Borough of Ebensburg which may amend plan provisions, and which is responsible for the management of plan assets. The Borough Council has delegated the authority to manage certain plan assets to Wells Fargo Advisors. The plan is required to file Form PC-201C biennially with the Public Employee Retirement Commission (PERC). The most recent filing was as of January 1, 2015.

Method used to value investments

Plan investments are reported at fair value. Short term investments are reported at cost, which approximates fair value. Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates.

Plan membership

The plan covers all full time employees of the Police Department. As of January 1, 2015, pension plan membership consisted of the following:

Active employees	4
Retirees and beneficiaries currently receiving benefits	3
Terminated employees entitled to benefits but not yet receiving them	<u>0</u>
Total	<u>7</u>

Benefits provided

The plan provides normal retirement, vesting, survivor, and disability benefits to plan members and their beneficiaries in accordance with Ordinance No. 506, as amended. Retirement benefits for plan members are calculated as fifty percent (50%) of the final monthly average salary (total pay excluding task force pay averaged over the final thirty-six (36) months of employment), plus service increment of \$20 for each completed year of service in excess of twenty-five (25) years, to a maximum increment of \$100. Plan members with twenty-five (25) years of service are eligible to retire at age fifty-five (55). The members are vested after twelve (12) years of service.

Survivor benefits before retirement eligibility amount to a refund of contributions, if any, plus interest. Survivor benefits after retirement eligibility are determined as fifty percent (50%) of the amount that the participant was receiving or was eligible to receive, for life. In the event of the spouse's death, the participant's dependent children under eighteen (18), or age twenty-three (23) if attending college, will share the benefit.

Disability benefits are only received if the cause is service related and the benefits are determined as fifty percent (50%) of the average monthly salary at the time of disability, offset by any benefits payable under the Social Security Act because of the same injuries. Disability benefits are not provided to participants for incidents that are non-service related.

Contributions

Act 205 of 1984, the Municipal Pension Plan Funding Standard and Recovery Act, initiated actuarial funding requirements for municipal pension plans. Act 205 requires that annual contributions to the pension plan be based upon the minimum municipal obligation (MMO). The MMO is determined from the plan's latest actuarial valuation report along with estimates of payroll, employee contributions, and administrative costs. For the year ended December 31, 2015, the Borough's required contribution was \$85,914.

Employees are required to contribute five percent (5%) of covered payroll to the plan. This contribution is governed by the plan's governing ordinances and collective bargaining. Contributions are currently seven percent (7%) of covered payroll.

Administrative costs, which may include but are not limited to investment management fees and actuarial services, are charged to the plan and funded through the MMO and/or plan earnings.

Investments

The plan is authorized to invest in legal investments permitted under the Pennsylvania Fiduciaries Investment Act. The plan's target asset allocation according to the investment policy adopted July 29, 2013, is as follows:

<u>Asset Class</u>	<u>Range</u>
Cash & Cash Equivalents	2-60%
Bonds	10-60%
Stocks	25-60%
Real Estate	0-20%
Natural Resources/Commodities	0-10%
Equipment Leasing	0-5%
Hedge Funds	0-10%
Preferred Stock	0-20%

Credit risk for investments is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The credit ratings of the plan's investments (excluding obligations explicitly guaranteed by the U.S. government) are included on the table below.

<u>Investment Type**</u>	<u>Fair Value</u>	<u>Credit Rating</u>
Money Market Funds	\$219,643	Not rated
Fixed Income Mutual Funds	<u>245,497</u>	Not rated
Total	<u>\$465,140</u>	

**Several items in this disclosure are provided as of December 31, 2014, the most recent year that was available as of the report date.

Concentrations

Concentration of credit risk is the loss attributed to the magnitude of an investment in a single issuer. The plan places no limits on the amount that may be invested in any one issuer. At December 31, 2014, the plan had no investments (other than U.S. Government and U.S. Government guaranteed obligations, mutual funds or other pooled investments) in any one issuer than represent five percent (5%) of more of fiduciary net position.

Rate of return

For the year ended December 31, 2014, the annual money-weighted rate of return on pension plan investments, net of pension plan investment expense was 4.60 percent. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

Net Pension Liability/(Asset) of the Borough

The components of the net pension asset of the Borough at December 31, 2014, were as follows:

Total Pension Plan Liability	\$ 1,174,965
Plan Fiduciary Net Position	(<u>1,231,328</u>)
Borough's Net Pension Liability/(Asset)	(\$ <u>56,363</u>)

Plan fiduciary net position as a percentage of the total pension asset is 104.8%.

Actuarial assumptions

The total pension liability was determined by an actuarial valuation as of January 1, 2015, using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	3.0%
Salary increases	5.0% including inflation
Investment rate of return	7.5% net of investment expenses not funded through the MMO, and including inflation

Mortality rates were based on the UP-94 Mortality Table for Males or Females, as appropriate, with adjustments for mortality improvements. The actuarial assumptions used in the January 1, 2015, valuation were based on the results of an actuarial experience study for the period January 1, 2013 – December 31, 2014.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which the best-estimate ranges of expected future real rates of return (expected returns, net of inflation and investment expenses not funded through the MMO) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic rates of return for each major asset class included in the target asset allocation as of December 31, 2014, (see the discussion of the pension plan's investment policy) are summarized in the following table:

<u>Asset Class</u>	<u>Long Term Expected Real Rate of Return</u>
Equity	6.3%
Fixed	2.0%
Cash and cash equivalents	0.0%

Discount rate

The discount rate used to measure the total pension liability/(asset) was 7.5%. The projection of cash flows used to determine the discount rate assumed that Borough contributions will be made equal to the Minimum Municipal Obligation. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability/(asset).

Sensitivity of the net pension liability to changes in the discount rate

The following presents the net pension liability/(asset) of the Borough, calculated using the discount rate of 7.5%, as well as what the Borough's net pension liability/(asset) would be if it were calculated using a discount rate that is 1-percentage-point lower (6.5%) or 1-percentage point higher (8.5%) than the current rate:

	<u>-1% (6.5%)</u>	<u>Current Discount Rate (7.5%)</u>	<u>+1% (8.5%)</u>
Borough net pension liability/(asset)	\$67,828	(\$56,363)	(\$161,448)

Non-Uniform Plan

Plan administration

The Borough of Ebensburg Non-Uniformed Employees' Pension Plan is a single-employer defined benefit pension plan. The plan was established effective March 27, 1972. The plan was amended and restated by Ordinance No. 606, effective January 1, 2013. The plan is governed by the Borough Council of the Borough of Ebensburg which may amend plan provisions, and which is responsible for the management of plan assets. The Borough Council has delegated the authority to manage certain plan assets to Wells Fargo Advisors. The plan is required to file Form PC-203C biennially with the Public Employee Retirement Commission (PERC). The most recent filing was as of January 1, 2015.

Method used to value investments

Plan investments are reported at fair value. Short term investments are reported at cost, which approximates fair value. Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates.

Plan membership

The plan covers all full-time, non-uniform employees. As of January 1, 2015, pension plan membership consisted of the following:

Active employees	13
Retirees and beneficiaries currently receiving benefits	6
Terminated employees entitled to benefits but not yet receiving them	<u>7</u>
Total	<u>26</u>

Benefits provided

The plan provides normal retirement, early retirement, vesting, survivor, and disability benefits to plan members and their beneficiaries in accordance with Ordinance No. 606. Retirement benefits for plan members are calculated as 1.2% of average monthly pay multiplied by years of service completed prior to January 1, 2007, plus 1.5% of average monthly pay multiplied by years of service completed after January 1, 2007. Average monthly pay is the monthly pay averaged over the five (5) consecutive plan years out of last ten (10) which gives the highest average. Normal retirement is at age sixty-five (65).

Plan members with ten (10) years of service are eligible to retire at age fifty-five (55). The accrued benefit at the date of actual retirement is payable at normal retirement. The benefit may be elected early but will be reduced by 6 2/3% for each of the first five (5) years plus 3 1/3% for each additional year by which commencement precedes normal retirement date.

Survivor benefits before early retirement eligibility amount to a refund of contributions, if any. Survivor benefits after early retirement eligibility but before retirement are determined as fifty percent (50%) of the amount the participant would have received had they retired the day before death and elected immediate commencement of benefits in the form of a joint and fifty percent (50%) survivor annuity. Survivor benefits after retirement are determined as the form of benefit payment in force for the participant at the time the death occurs.

Disability benefits for total and permanent disablement and qualification for social security disability benefits are calculated as a monthly benefit equal to the accrued benefit at the date of disablement payable following date of disablement until normal retirement date at which time the normal retirement benefit will commence. The accrued benefit is equal to the prospective normal retirement benefit based on years of service and average monthly pay at date of disability.

Contributions

Act 205 of 1984, the Municipal Pension Plan Funding Standard and Recovery Act, initiated actuarial funding requirements for municipal pension plans. Act 205 requires that annual contributions to the pension plan be based upon the minimum municipal obligation (MMO). The MMO is determined from the plan's latest actuarial valuation report along with estimates of payroll, employee contributions, and administrative costs. For the year ended December 31, 2015, the Borough's required contribution was \$83,183.

Employees are required to contribute to the plan in an amount to be determined from time to time. This contribution is governed by the plan's governing ordinances and collective bargaining. Contributions are currently three percent (3%) of covered payroll.

Administrative costs, which may include but are not limited to investment management fees and actuarial services, are charged to the plan and funded through the MMO and/or plan earnings.

Investments

The plan is authorized to invest in legal investments permitted under the Pennsylvania Fiduciaries Investment Act. The plan's target asset allocation according to the investment policy adopted October 27, 2008, is as follows:

<u>Asset Class</u>	<u>Range</u>
Cash & Cash Equivalents	2-60%
Bonds	10-60%
Stocks	25-60%
Real Estate	0-20%
Natural Resources	0-10%
Equipment Leasing	0-5%
Hedge Funds	0-10%
Preferred Stock	0-20%

Credit risk for investments is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The credit ratings of the plan's investments (excluding obligations explicitly guaranteed by the U.S. government) are included on the table below.

<u>Investment Type**</u>	<u>Fair Value</u>	<u>Credit Rating</u>
Money Market Funds	\$ 11,158	Not rated
Fixed Income Mutual Funds	<u>321,016</u>	Not rated
Total	<u>\$ 332,174</u>	

**Several items in this disclosure are provided as of December 31, 2014, the most recent year that was available as of the report date.

Concentrations

Concentration of credit risk is the loss attributed to the magnitude of an investment in a single issuer. The plan places no limits on the amount that may be invested in any one issuer. At December 31, 2014, the plan had no investments (other than U.S. Government and U.S. Government guaranteed obligations, mutual funds or other pooled investments) in any one issuer than represent five percent (5%) of more of fiduciary net position.

Rate of return

For the year ended December 31, 2014, the annual money-weighted rate of return on pension plan investments, net of pension plan investment expense was 5.00%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

Net Pension Liability/(Asset) of the Borough

The components of the net pension asset of the Borough at December 31, 2014, were as follows:

Total Pension Plan Liability	\$ 1,791,926
Plan Fiduciary Net Position	(<u>1,488,458</u>)
Borough's Net Pension Liability	\$ <u>303,468</u>

Plan fiduciary net position as a percentage of the total pension asset is 83.1%.

Actuarial assumptions

The total pension liability was determined by an actuarial valuation as of January 1, 2015, using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	3.0%
Salary increases	4.5% including inflation
Investment rate of return	7.5% net of investment expenses not funded through the MMO, and including inflation

Mortality rates were based on the UP-94 Mortality Table for Males or Females, as appropriate, with adjustments for mortality improvements. The actuarial assumptions used in the January 1, 2015, valuation were based on the results of an actuarial experience study for the period January 1, 2013 – December 31, 2014.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which the best-estimate ranges of expected future real rates of return (expected returns, net of inflation and investment expenses not funded through the MMO) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic rates of return for each major asset class included in the target asset allocation as of December 31, 2014, (see the discussion of the pension plan’s investment policy) are summarized in the following table:

<u>Asset Class</u>	<u>Long Term Expected Real Rate of Return</u>
Equity	6.3%
Fixed	2.0%
Cash and cash equivalents	0.0%

Discount rate

The discount rate used to measure the total pension liability was 7.5%. The projection of cash flows used to determine the discount rate assumed that Borough contributions will be made equal to the Minimum Municipal Obligation. Based on those assumptions, the pension plan’s fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the net pension liability to changes in the discount rate

The following presents the net pension liability/(asset) of the Borough, calculated using the discount rate of 7.5%, as well as what the Borough's net pension liability/(asset) would be if it were calculated using a discount rate that is 1-percentage-point lower (6.5%) or 1-percentage point higher (8.5%) than the current rate:

	<u>-1% (6.5%)</u>	<u>Current Discount Rate (7.5%)</u>	<u>+1% (8.5%)</u>
Borough net pension liability/(asset)	\$534,103	\$303,468	\$108,092

GASB Statement 45 – Post Employment Benefits

The Borough does not provide any other post-retirement benefits (OPEB) other than pension benefits; therefore GASB 45 does not apply.

NOTE 8 - DEFERRED COMPENSATION PLAN

The Borough offers employees a deferred compensation plan created in accordance with Internal Revenue Code Section 457. The plan permits them to defer a portion of their salary until further years. The deferred compensation is not available to employees until termination, retirement, death, or unforeseeable emergency.

The plan complies with Section 457 of the Internal Revenue Code, whereby, trust provisions are incorporated so that plan assets are held in trust for the exclusive benefit of participants and their beneficiaries. As a result, as of December 31, 2015, the assets and liabilities of the deferred compensation plan are not included in the accompanying financial statements.

NOTE 9 - RELATED PARTY TRANSACTIONS

On May 3, 2007, the Borough entered into an Agreement of Lease, updating a prior agreement dated November 1990, with the Municipal Authority of the Borough of Ebensburg, whereby the Borough is authorized to manage and operate the day to day operations of the sewer and water systems and to employ Borough personnel in connection with all routine procedures.

The Borough remits both principal and interest costs related to all Municipal Authority loans, in addition to payments for certain other Authority obligations. In 2015 payments made by the Borough amounted to \$760,623. See Note 10 for additional information.

In connection with the Pennsylvania Municipal Authorities' Act, the Borough appoints all members of the Authority board. However, the Authority retains all powers regarding the establishment of rates, regulations and major policies.

NOTE 10 - COMMITMENTS AND CONTINGENCIES

Litigation

In the normal course of operations, the Borough is involved in various disputes and grievances. Management is of the opinion that any outcome resulting from these actions would not have a material effect on the Borough's financial position.

Grant Programs

The Borough participates in various state and federal grant programs which are subject to program compliance audits by the grantors or their representatives. Although the Borough believes it has complied with applicable rules and regulations of the grants, it is potentially liable for any expenditures which may be disallowed pursuant to the terms of the grants.

During 2014, the Borough was awarded a \$500,000 Transportation Enhancement Grant through PennDOT for the 2015 sidewalk project. As of December 31, 2015, \$499,968 has been expended on this project.

Ebensburg Municipal Authority Loan Guarantees

Currently the Borough guarantees five (5) Municipal Authority loans, summarized as follows:

	<u>Principal Balance</u> <u>As of December 31, 2015</u>	<u>Year of</u> <u>Maturity</u>
2004 PENNVEST Loan	\$ 2,233,508	2025
2007 PENNVEST Loan	\$ 1,326,704	2028
2008 PENNVEST Loan	\$ 390,434	2028
2012 PENNVEST Loan	\$ 4,335,605	2033
2007 Pennsylvania D.C.E.D. Loan	\$ 541,718	2027

NOTE 11 - SUBRECIPIENTS

As part of their ongoing operations, the Borough submits funding requests to Pennsylvania Department of Community & Economic Development ("DCED") for federal and state program funding that is passed through to Ebensburg Downtown Partners (subrecipient). The Borough performs subrecipient monitoring procedures over this program activity throughout the course of the year. In addition, it has been the regular practice of the Borough to have closeout audits performed to satisfy any federal or state audit requirements.

NOTE 12 - OPERATING LEASES

Lessor

The Borough has various operating leases for the lease of property to tenants. The leases generally contain renewal options, as well as escalation provisions.

The future minimum rentals on such leases as of December 31, 2015, are approximately as follows:

2016	\$ 41,764
2017	43,017
2018	<u>3,594</u>
	\$ <u>88,375</u>

NOTE 13 - SUBSEQUENT EVENTS

Subsequent events were considered through April 6, 2016, the date the financial statements were available to be issued.
