New Construction – All new sewage connections serving new construction must successfully pass an air pressure test, witnessed by Borough staff, in compliance with the Rules & Regulations.

Pre-Sale Test – Prior to the transfer (as defined in the Rules & Regulations) of any property, the sewer lateral must be brought into compliance with the Rules & Regulations. This requirement will be satisfied in one of two ways.

1. The sewer lateral must contain all required components, and successfully pass an air pressure test.
2. In limited circumstances, the owner may, at the sole discretion of the Borough, escrow the prescribed amount of funds, ensuring that the necessary work will be completed by the buyer, when directed. The property shall, in such a case, successfully pass an interim dye test.

Upgrade - All upgraded sewage connections must successfully pass an air pressure test, witnessed by Borough staff, in compliance with the Rules & Regulations
