**Item 5D: Reservoir Valves**

DEP is requiring that a “close inspection of the outlet conduit including appurtenant gates and valves” be conducted at both reservoirs. That has not been done since 2003. This issue was referred to the borough engineer to determine what technical requirements might be involved with such an inspection. Staff expects to have a recommendation for Council in June.

Recommended Action – No action required.

**6. RECREATION COMMITTEE**

**Barber & Jacoby**

**Item 6A: Playground Fences**

The chain link fence around the Memorial Field playground was replaced in 2013 with black aluminum fence. The new fence looks much better, is more durable, and the gates are more secure. \$10,000 was budgeted in 2015 to do the same at the east ward and center ward playgrounds.

The east ward playground is a relatively small job. The fence is on only two sides of the playground, and there are no gates. The old fence is broken in several places, the top rail is separated, and it just looks bad. The project estimate is \$2,025.

The center ward playground is a much larger project. It requires more linear feet of fence, three gates, and a 10' high section at the basketball court. The existing fence is broken, leaning, and looks more like a corral than a playground. The project estimate is \$9,900.

The Borough crew should have time this year to replace the smaller east ward fence. Staff suggests postponing the more time consuming center ward project until next year.

Recommended Action – Approve the installation of new aluminum fence at the east ward playground.

**Item 6B: Playground Repairs**

There are two components of playground structures that require replacement. Both are no longer available. They can be replaced with different types of components from the same manufacturer.

A 4' crawl tube at the east ward playground will be replaced with an open deck bridge. The small angled tube on the sliding board at Memorial Field is cracked, meaning that the entire tube slide will need to be replaced with an entirely new slide. The cost of replacing the parts is \$3,900.

Recommended Action – No action required.

## 7. STREET COMMITTEE

Lutz, Miller & Houser

### Item 7A: Sidewalk Project

PennDOT received two bids for this year's sidewalk project, the lowest being \$1.3 million from Gordon DeLozier. The contract will take several weeks to process, and work should begin in early June. Borough crews will begin some of the related work this week including removal of tree stumps on South Center Street, replacement of stormwater basin tops on West High Street, and the installation of new stormwater drains on Rowena Drive.
