Ebensburg Tennis Center Code of Conduct:

- 1) Please be respectful of those playing on the courts while you are playing; for example-watch your language, try to contain outbursts on the court and be respectful of the tennis center's property when playing.
- 2) When reserving a court please make sure that you play within your allotted time period. If you do decide to play over your time reserved please let myself or a front desk staff member know that you have played longer.
- 3) If you reserve a court please make sure that you put all the people playing in the group. If there are any people playing as non members please note that on your reservation. These adjustments can be made in the "summary section" on the court reservation link. If the tennis staff only sees one name on the court reservation book that person will be charged for the full court rental. If you are not sure how to add someone onto the "summary" section please ask myself or a front desk staff member, it only takes a few seconds to make that addition.
- 4) Please make payments to your account in a timely fashion. Each member receives a statement on a monthly basis and is expected to pay their balance when it is due. We do not charge interest on delinquent accounts and would not want to do this in the future, so please be prompt with payments.

Thank you for your continued support!
