

**SURVEY NOTES:**

- 1. Stationing throughout this drawing is based on the GPS survey conducted on August 15-17, 2022 and by intersection and ground GPS survey August 15-14 & September 12, 2022.
- 2. Horizontal datum is based on NAD83/2011 North State Plane coordinates for the NAD83/2011 RTM Network.
- 3. Vertical datum is based on NAVD83 Vertical Datum (EGE0216) from the NAD83/2011 RTM Network.
- 4. This survey was not completed with the benefit of a title report.

The drawings, specifications or other documents presented in this electronic media are INSTRUMENTS OF THE DESIGN PROFESSIONAL'S SERVICES and the services of its subconsultants. The design professional and/or its subconsultant retain certain rights to this information as specified in the design professional's contract(s). No party receiving this electronic media is thereby granted rights to reuse this information for any other project, except for those rights (if any) provided to that party by contract with the design professional or the design professional's client.

Because electronic media can deteriorate or be easily modified inadvertently or otherwise without authorization of the design professional, it is provided for convenience only, and by using this electronic media, the user ASSUMES THE RISK of using this information. The user also ASSUMES THE RISK that the documents reflected in the electronic media may become outdated or superseded. Only the most recent version of printed documents finally issued by the design professional (hard Copies) should be relied upon as comprising the design professional's expression of the design of the project.
